

Really good things have been happening at TSVA this season. Our program is starting to show up at the national level which is one of my goals as a director. We want Top Select to be recognized and successful at the national level.

Our 18 Elite Team will be the first team with graduating seniors from our program. They had an impressive 9th place finish in Denver, and 3rd place in the USAV Regional Bid Tournament, the 18s have given our fans the opportunity to watch great, competitive volleyball.

In Atlanta for the Big South Qualifier, Top Select brought the most teams to date. On the first day, we started in the gold bracket with 8 of the 10 teams; the second and the third day we had four teams in the gold bracket, with the 15 Elite team finishing 5th overall. This is a great accomplishment for our program which is only 3 years old.

The Florida Regional Bid Tournament was huge for TSVA. Most of our teams were in the top 3 spots. We are really proud of all the teams that participated that weekend: 12 Elite, 15 Elite, 16 Elite, and 18 Elite all took 3rd while the 13 Elite placed 2nd, and the 14 Elite won 1st place. It is days like these where we see all the hard work pay off.

I want to thank our Master Coach, Enrique Briceno, who has helped me to develop the training for the program. I am also grateful for the coaches who put so much effort into this program every day. Most of all I appreciate the families who believe in me and support our program and last but not least, the players who have worked so hard to represent the name of Top Select Volleyball Academy at the next level. Thanks again to all of you and THANKS for being part of my life as a coach, director and as a friend.
