

MAX SPORTS RECRUIT

We are extremely excited to announce that your club is now a member of MaxSportsRecruit. MaxSportsRecruit is a college recruitment service. The goal of the service is to facilitate your search for college placement. The service makes your profile available to every single volleyball program in the U.S., as well as all NCAA volleyball programs in Canada, Puerto Rico and the Virgin Islands. Your profile consists of an extensive questionnaire with all the areas of interest to college recruiters. The profile also allows for the loading of videos, a skill and a game video, as well as Scrap Book, where items such as newspaper clippings, unofficial college transcripts, record of awards received, may be loaded and made available to the college recruiters. The service is both an active and a passive search engine. In the active mode you have one click contact to the website of every single volleyball program in the nation. You also have the ability to inform colleges of your interest to attend their institutions, as well as be able to email the head coach of every program in the nation. In the passive mode, the system allows over 1,780 college coaches to run searches of our database. These searches allow the recruiters to list players and to view the profile of every player in our system. The service also offers you extensive information in the recruitment process, as well as a direct line to our experienced knowledgeable counselors. The service also keeps you inform on any activity on your profile. Who is looking at your profile as well as who has more than just a marginal interest in you. The service is available to you for the nominal fee of \$100 per year, less if you select a longer period membership. To begin your college search logon to your club account and click on the MaxSportsRecruit link. We welcome the opportunity to be an integral part of your college search.

Thank you,
